Pulsed field ablation: Fundamentals of electroporation

Program description & objectives	In the first of a 4-part series on pulsed field ablation, this virtual program will feature a presentation and interactive discussion focused on: <ul style="list-style-type: none">• The fundamentals of electroporation and how it applies to pulsed field ablation (cardiac electroporation)• The research supporting electroporation as a method for cardiac ablation• The application of pulsed field ablation in the field of electrophysiology		
Target audience	This program is intended for electrophysiologists, cardiologists, fellows, and allied healthcare professionals		
Program faculty	 Damijan Miklavčič, Ph.D. Professor, Faculty of Electrical Engineering University of Ljubljana Ljubljana, Slovenia	 Atul Verma, M.D. Director, Division of Cardiology McGill University Health Centre Montreal, QC, Canada	 Khaldoun Tarakji, M.D. Chief Medical Officer Medtronic Mounds View, Minnesota
Date	Wednesday, September 28, 2022 4 p.m. PT 5 p.m. MT 6 p.m. CT 7 p.m. ET		
Location	Virtual		
RSVP	Click here to register		

Join us for three additional Scientific Exchange programs on pulsed field ablation in the upcoming months. Sign-up to receive email notifications when new programs are available by following the registration link above.
